Being a GP can be anything you want it to be!

Supporting Nottinghamshire GPs to discover joy in their work and find a better working life. The GP Portfolio Plus initiative is hosted by the Nottinghamshire Local Medical Committee, and GP-S provides administrative support for the scheme.

Skills and interests register

The scheme will compile a skills and interests register to enable us to proactively alert you of opportunities that emerge within the local health and social care economy

Peer support network

Working with like-minded individuals to share experiences and provide moral support to each other is a component of the scheme

Focused coaching and mentoring (GP-S)

GP-S provides up to four sessions of up to two hours each of free coaching and mentoring provided by fellow GPs. One of the key aims is to help people to find direction aligned to their personal wants, needs and abilities

Database of opportunities

The scheme proactively develops a database of opportunities for your skills and interests with regular updates sent to you for any newly-listed ones

Packaged GP support

The approach to this support is based on a case-worker relationship with the scheme. GP Portfolio Plus provides a one-stop shop to help with all aspects around seeking a better working life
