

# Meet your wider GP Practice Team!

Did you know that your GP Practice has a qualified team of clinical and non-clinical professionals who work together with your GP to ensure you get the best healthcare possible? Get to know the great team of professionals in general practice, who are qualified to look after your health needs.

## Receptionist (Care Navigator)

A GP receptionist is a care navigator. They are the first point of contact when you visit or call your surgery. To ensure that you get the right help from the right professional, receptionists will ask you questions about your health concerns.

## Mental Health Practitioner

A mental health practitioner cares for people with mental health issues, substance abuse, poverty, and other social problems.

## Social Prescribing Link Worker (SPLW)

An SPLW provides a holistic approach to people's health and wellbeing through connecting patients to community groups and required services for practical and emotional support.

## Pharmacy Technician

Pharmacy Technicians handle many areas of pharmacy practice, including purchasing, manufacturing, preparation, supply and final check of medicines; to supporting medicines use reviews and the administration of medicines.

## Health and Wellbeing Coach

A Health and Wellbeing Coach supports patients by helping them to identify their goals and assist in managing their own health and wellbeing to live independently.

## Dietician

Dietitians undertake patient assessments to diagnose and treat dietary and nutritional problems. They provide guidance on food research, health and disease management so that people can make appropriate lifestyle and food choices.

## Occupational Therapist (OT)

An OT provides support to people of all ages and backgrounds who are affected by accidents, physical and mental illness, disability, or ageing. They can aid patient's recovery to overcome activity barriers.

## Podiatrist

A Podiatrist specialises in the management of foot, ankle and leg conditions and supports delivery of patient care through prevention, diagnosis, and treatment within the wider practice team.

## No 'I' in TEAM

Your GP cares about your health, that's why all members of the practice team are integral to ensuring you get the best healthcare. GPs are not the only professionals who can handle your health needs, they have a team to help too.
